## Scope

### Introduction

This document covers the system acceptance test for iteration 1 of the South Adelaide Beauty & Education system. The purpose of this testing is to ensure that the system developed by the team satisfies all requirements and expectations and functions as intended. This testing also aims to detect any bugs or usability issues before the system is actually deployed for use by the public. The table below defines the test criteria, the table can be followed by attempting to perform the specified tasks and recording any observations whilst making a note of the success/failure of each criteria. This testing allows the team to better gauge how usable the system is in a real-world scenario and obtain feedback on how to improve usability and functionality.

### Project Overview

The system developed during this iteration includes a new homepage, Courses, Beauty by Lisa and a Contact Us page. All four of these pages are accessible by the public. The below diagram shows all the system features and what a customer and admin (yourself) can do so far.

Previously, we aimed to include a calendar for Lisa to input and view her appointments and availability when she logs in. However, we were unable to during this iteration due to attempting to use a different third party learning management system. The team soon

concluded that using another third party would not solve the current issues and not streamline the system as there would still be 2, third party systems in use; Fresha and an LMS.

## Credentials

Link to Website: <https://sabe.u24s1009.iedev.org/>

### Admin Login

Email: admin@sabe.com

Password: Sabe1234

### Demo Payment Details

Card number: 4242424242424242

Expiry Date: any future date

CVC: any 3 digits

## Acceptance Test Plan

The following table lists several functions for testing, and the evaluation results are divided into Pass and fail. This will represent your level of approval of how well the feature has been implemented.

### Admin

Testing Requirement	Pass/Fail	Comments (e.g Does it look good? Does it add business value? Is it effective?)
Manage Enquiries		
Modify Homepage		
Manage Courses		
Manage Users		

### Customer

Testing Requirement	Pass/Fail	Comments (e.g Does it look good? Does it add business value? Is it effective?)
Submit an Enquiry		
Enrol in a course		

Access Beauty by Lisa Follett booking system

## Client Sign Off

I, \_\_\_\_\_, have reviewed the functions of the entire system described in this report.

- ☐ I approve that the system currently fits my business needs.
- ☐ I have identified areas that need changes, but I am willing to accept the system if the feedback I provide is taken into consideration and actioned.

Please indicate your choice by marking the appropriate box above.

Hereby, I accept the system so far (including all the available functions) designed by Team 9 - Arasaka Crop.
